

Dear Parents/Guardians,

Due to the to consistent and chronic issues of students being late for specialties, despite being dismissed from previous classes on-time, students who continue to arrive late for specialty classes will be kept for detention at the end of the day, or during lunch for those students who take the bus. The length of detention will consist of a time that is double the minutes the student arrived late to class. This is to deter continued issues of lateness, which result in a disruption of learning, and the need to track students arriving late. If you have any questions or concerns, please contact me at 873-5591.

Sincerely,

Simone Gessler
